WORK EXPERIENCE

SpeedLabs

New York, NY

Growth and Product Intern

September 2026 – Present

- Joined SpeedLabs, a **\$6.5M** seed-stage live sports prediction startup, to help grow its NFL game Speed Survivor
- Handled outreach across the sports betting industry and proposed UI changes to increase player retention

Alvarez & Marsal

New York, NY

Crypto and Digital Assets Intern

June 2026 – August 2026

- Built an Airtable database for a crypto client's C-suite to track all contracts and **\$60M+** in annual sales
- Designed Claude skills to mass-analyze contracts and documents, turning slow manual review into quick summaries
- Co-wrote a thought piece on the stablecoin OUSD and the future of payments, published and presented team-wide

WSC Sports

Tel Aviv, Israel

Revenue Operations Intern

May 2025 – July 2025

- Reopened **\$10M** in annual sales potential by applying AI-powered analytics to assess **700+** lost sales opportunities, streamlining Salesforce CRM and implementing automated outreach workflows
- Engineered an SQL solution assessing risk for **500+** accounts (**\$125M+** pipeline), saving leaders **40+** quarterly hours
- Improved forecast accuracy by standardizing opportunity tracking with sales, analytics, and product teams

Stats Perform

Remote

U.S. Data Insights Summer Intern

June 2024 – August 2024

- Co-developed and launched an R-Shiny app to streamline NBA player stats visualizations and automate MLB pitch-mix graphics, reducing production time by **80%**; presented the project to company leadership
- Delivered live stats and detailed game notes to **6** MLB teams, NBC Sports, and international broadcast partners, supporting game preparation, real-time data delivery, and in-depth insights across MLB and NFL coverage
- Queried SQL and STATSPASS database to find sports insights, shared with **130K+** followers via @OptaStats on X

LEADERSHIP & COMMUNITY INVOLVEMENT

TAMID Group

Atlanta, GA

Project Manager, Consultant

January 2023 – Present

- Worked with private aerospace company to create white papers, CRM data synthesis, and market Gantt charts
- Sourced and presented to **10** potential investors for client startup Unitext, supporting expansion efforts
- Presented data-driven recommendations to clients focused on increasing marketing ROI and performance KPIs

Emory Sports Analytics Club

Atlanta, GA

President, Project Manager

August 2023 – Present

- Spearhead club operations for **30+** members, including a **10**-student 'Analytics Academy' teaching R & Python
- Directed a **5**-person team building an AI/ML model to predict NFL sack probability and player performance
- Coordinate bi-weekly guest speakers and industry leaders in the sports analytics and gambling industry
